Forecast for Monday 18 Jul 2022

Weather: A very warm start to the day with bright spells allowing temperatures to rise rapidly through the morning. Plenty of strong sunshine during the afternoon, with temperatures that may cause difficulties for some. Higher-based cloud will make the sunshine hazier on occasion.

Chance of cloud-free hill tops above 600m: 100%

Low cloud and visibility: Generally excellent visibilities with cloud bases well above summits throughout, though perhaps a little hazy at times.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Extreme heat may make walking difficult for some with temperatures remaining very warm even at height. Ensure to stay hydrated and drink plenty of fluids while also wearing appropriate protection from high levels of UV.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Tuesday 19 Jul 2022

Weather: A very warm and uncomfortable night leads into another mostly dry and sunny day. Feeling very hot in the long sunny spells with extreme temperatures that may again cause difficulties for some. Cloud building into the afternoon bringing a risk of occasional shower through into the evening.

Maximum wind: 25mph southeasterly winds on the summits, transitioning to 15mph southwesterly winds for the afternoon.

Chance of cloud-free hill tops 600m: 100%.

Low cloud and visibility: Mostly excellent visibility with cloud above the summits. The chance of a temporary reduction in any isolated late afternoon/evening shower.

Temperature: **Valleys:** Plus 22 Celsius, rising to plus 31 Celsius.
At 600m: Plus 23 Celsius through the day, falling to 18 Celsius in the evening.
Freezing level: Well above the summits.
